**ART UNIT 2173**

Art Unit: 2173

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Mr. Wolfe on 5 March 2007.

3. The application has been amended as follows:

In the Claims:

Claims 1 – 5, 24 – 26 have been canceled.

4. These claims were drawn to inventions not elected with traverse, where the restriction requirement was made final in the office action mailed 2 February 2005.

5. The following is an examiner's statement of reasons for allowance:

Upon initially taking the amended application, while having previously indicated as allowable independent claims 8, 9, 12, 13, 16, 17, drawn to a dealership communications interface, it appeared that the remaining independent claims 18, 20, 22 still read upon the main reference Kerkinni (US #2002/0,107,833 A1), as was relied upon in the previous office action. The phrase "means to display the plurality of display regions on a display device" as "a graphical user interface" (claim 18 quoted as exemplary) might still be interpreted as meaning that the separate lease terms as seen in Kerkinni's vehicle fleet arrangement can be viewed in time sequence.

However, and upon further consideration of applicant's record, it becomes clear that the "graphical user interface" means one in which a concurrent display from plural

"lease term" items must occur. See, for example, applicant's response of 19 June 2006, page 13.

Applicant's representative Mr. Wolfe was in the process of attempting to reach the applicant to point out the potential difficulty, and the assistance provided there is appreciated, even though it is now seen by the Office that the claims can be allowed as they are.

During a final and updating search of the prior art, the Examiner noted, as with claims to the invention as seen in claim 8 and others like it, that Reichwein et al. (US #2001/0,053,983 A1) teaches an automotive information management arrangement that handles such matters as work orders for repairs. However, unlike the present claims, Reichwein et al. do not present an operator interface having the particular regions as called out in the claims, and further do not concern themselves with lease terms.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Raymond J. Bayerl, whose telephone number is (571) 272-4045. The Examiner can normally be reached on M – Th from 9:00 AM to 4:00 PM ET.

8. If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, Kristine Kincaid, can be reached at 571-272-4063. All patent application
